Dear Head teacher

**Re: COVID-19 foreign holidays and returning pupils to Liverpool**

After half term there may be a number of families returning to Liverpool from holidaying overseas with children planning to start school.

As you know there are restrictions in place regarding travel from some foreign countries and some people returning to the UK may need to [isolate for 14 days](#) as soon as they arrive, depending on where they have travelled from.

Any pupils returning from countries that are subject to restrictions should not return to school for 14 days and should isolate at home. This is a vitally important measure to help control and contain COVID-19.

The list of countries requiring isolation for 14 days is constantly changing so please regularly check the latest version here: <https://www.gov.uk/guidance/coronavirus-covid-19-travel-corridors>

We would appreciate you making families aware of these potential restrictions and highlight their responsibility to check the above site upon return to the UK. For those who have already made arrangements will need to isolate but will not be fined.

Should you require further advice or information please contact [allison.cain@si.liverpool.gov.uk](mailto:allison.cain@si.liverpool.gov.uk) at School Improvement Liverpool in the first instance.

Many thanks for your continued support.
